Sample Proceedings Page (Title in 12-Point Bold)

Author Nemo (10-point bold)

1. Introduction (sections numbered starting at 1.)

Every paragraph should be indented a quarter inch (not a half inch), fully justified, with examples whenever you want:

- (1) a. Example example. (all text, examples, etc. in 10-point)
Gloss gloss
'Translation.'

- b. Example etc.

And then the paragraph can continue.

Following paragraphs should not skip lines.

2. Size of pictures (all section headings in 10-point bold)

Make sure diagrams and pictures do not extend beyond the margins of the page. Also remember that reproductions are often not as crisp as the originals, so make sure diagrams do not contain absurdly small type or important details that might get lost by slight blurring. We always try to keep the print quality high, but better safe than sorry.¹

Appendix (before references, not after)

If you do not have room for all of the supplementary material that you want to include in the appendix, consider putting the material up on a web page. Then refer interested readers to that web page at the appropriate point in the text.
